

Combo tensioner hybrid

ES-CTNTBB

The heavy duty nylon tensioner is a tension system and an insulator all in one.

Features:

- A hardy heavy duty tensioner for all weather types
- Can tension from a 1.2mm wire up to a 2.5mm wire, making it very versatile
- Recommended tensioning up to 70kg
- It eliminates galvanic reaction between dissimilar metal thus eliminating rust and can be used with any type of wire

Specifications:

Material: UV stabilised glass filled nylon
Tension maximum: 70kg
Operating temperature: -40 to 80Celsius
Operating voltage: 0- 12KV
Recycling: SPI resin code 7
